26 Technical data

A promotional image for a car advertisement. It features a white BMW M3 and a blue Ford Mustang on a racetrack at night. The BMW is on the left, angled towards the viewer, with its headlights on. The Mustang is on the right, partially visible, also with its headlights on. In the background, there's a chain-link fence and a city skyline with illuminated skyscrapers under a dark sky. The overall mood is high-energy and competitive.

HIGHLIGHTS.

Discover more with the new BMW catalogue app. Now available for your smartphone and tablet.

■ Standard equipment □ Optional equipment

- Double round exhaust tailpipes left and right at the rear visually emphasise the vehicle's performance.
- The valve-operated, M sports exhaust system delivers either a particularly sporty or more low-key engine sound, depending on the driver's preference.

- The front end strut brace made of carbon fibre reinforced plastic (CFRP) is a significant body component in the engine compartment that comes from motor-sport vehicles. Though it weighs only 1.5 kg, it significantly increases front-end rigidity and contributes to greater steering precision and accuracy.

- Adaptive LED headlights with low-beam and high-beam headlights include Adaptive headlights and a high-beam assistant, among other things.

- The "M2 Competition" designation on the rear is an indication of the vehicle's extraordinarily high driving dynamic potential.

- BMW Individual high-gloss Shadow Line with extended contents includes numerous equipment details in Black high-gloss, e.g. the trim strips on the side frames, the window recess finishers, the frames and bases of the exterior mirrors, the front ornamental grille and the side air vent elements. The tailpipe trims come in Black Chrome.

- M door sill finishers with the "M2 Competition" designation on chrome-plated inserts in the front sills emphasise the vehicle's athletic ambitions and set the mood for the driving experience to come.

- The striking, characteristic M side air vent element highlights the car's athletic pedigree.

- The Front ornamental grille with black M double slats and a chrome-coloured frame adds a further touch of exclusivity to the front of the vehicle.

- 19" M light alloy wheels Y-spoke style 788 M with mixed tyres in black, forged, burnished, wheel size 9J x 19 front with 245/35 R19 tyres, wheel size 10J x 19 rear with 265/35 R19 tyres.

HIGHLIGHTS.

Equipment 20 | 21

Discover more with the new BMW catalogue app. Now available for your smartphone and tablet.

■ Standard equipment □ Optional equipment

■ The M TwinPower Turbo inline 6-cylinder petrol engine features superior power delivery and the striking characteristic M engine sound.

■ Featuring lightweight-construction axles and Active M differential, the M specific suspension exquisitely highlights the vehicle's dynamic potential.

■ Thanks to the use of a special material mix, M compound brakes achieve outstanding deceleration values and are extremely stable and highly durable.

□ The M Sport brake¹ with large compound brake discs is characterised by increased fading stability and thermal stability.

■ The aerodynamically optimised M exterior mirrors are a significant part of the sporty and dynamic M design. Attached to the body by a double-bridge designed base, they underscore the beautiful aesthetics of the car and convey a sense of precision engineering down to the last detail. The additional LED indicators are fitted perfectly into a long, narrow groove.

■ The M seat belts with belt tensioner and belt force limiter boast an exquisite woven highlight in the classic M colours.

■ Depending on the equipment, Multifunction for steering wheel can be used to operate the telephone, voice control and audio functions via the buttons on the steering wheel. The Manual Speed Limiter is also integrated. It can be used to set an upper limit of 50 km/h for city driving, for example.

□ The multi-adjustable M Sport seats with bucket seat character and integrated headrest provide excellent lateral support for the driver and front passenger. In addition, the backrest width can be individually adjusted. Their special design with illuminated M2 logo highlights the vehicle's athletic capabilities.

■ The extended contents of the Instrument cluster include a high-resolution TFT display which can show navigation tips², operational messages and various vehicle informations such as a notification of low windscreen wiper fluid.

□ Shift gears without losing power, using the clutch or slowing down: the 7-speed M double-clutch transmission with Drivelogic. Gears can be changed automatically or manually using the gearshift paddle switches on the steering wheel, or the gear selection lever. Launch Control guarantees maximum acceleration from a standing start.

¹ The image on the left shows the optional M Sport brake.

² Only available in conjunction with the Professional Navigation system.

EXTERIOR COLOUR WORLD.

■ Standard equipment □ Optional equipment ○ Accessories

■ **Non-metallic** U300 Alpine White

□ **Metallic** 475 Black Sapphire

□ **Metallic** C16 Long Beach Blue

□ **Metallic** C1X Sunset Orange

□ **Metallic** C33 Hockenheim Silver

Power up an already impressive appearance:

○ The exclusive M Performance motorsport decal in the M colours further accentuates the sporty character of the vehicle and makes a clear reference to racing. The high-quality foil set is, of course, light, weather and car-wash resistant and is optimally matched to the vehicle geometry. For enhanced individuality.

Material	Light alloy

The figures for performance, fuel consumption and CO₂ emissions refer to vehicles with standard transmission. Values in [] are for vehicles with double-clutch transmission.

¹ The EC unladen weight refers to a vehicle with standard equipment and does not include any optional extras. The unladen weight includes a 90 % full tank and a driver weight of 75 kg. Optional equipment may affect the weight of the vehicle, the payload and the top speed if the selected equipment has an impact on the vehicle's aerodynamics.

² Electronically limited.

³ Performance data of petrol engines apply to vehicles using RON 98 fuel. Fuel consumption data apply to vehicles using reference fuels in accordance with EU Regulation 2007/715. Unleaded RON 91 and higher with a maximum ethanol content of 10 % (E10) may also be used. BMW recommends RON 95 super unleaded petrol.

⁴ The data for fuel consumption, CO₂ emissions and energy consumption were determined in accordance with the measurements processes as defined by European Regulation (EU) 2007/715 in the applicable version. Data refer to a vehicle with base-level equipment in Germany, and the ranges account for differences according to the selected wheel and tyre size and the optional equipment and may change during the configuration process. Figures have been determined on the basis of the new WLTP test cycle and have been converted back into NEDC figures for comparability. For these vehicles, values other than those specified here may apply for the assessment of taxes and other vehicle-related charges that are (also) based on CO₂ emissions.

This brochure has been prepared by BMW AG and shows product features, specifications and models available in Europe. While BMW AG has endeavoured to ensure that all information, representations, illustrations and specifications contained in these materials are accurate at the time of publication, the information is general in nature only and may show overseas product features, specifications or models not available in Australia or New Zealand. Product features, specifications and models are subject to change without notice. The general information in these materials should always be read in conjunction with other specific materials and information available from BMW Group Australia, BMW Group New Zealand and their respective dealers. To the extent permitted by law, BMW Group Australia and BMW Group New Zealand excludes all express and implied warranties or guarantees and all liability, whether direct, indirect, special or consequential, arising from negligence or otherwise relating to the use of these materials, any inaccuracies and for any non-compliance by any vehicle with any representation, illustration, specification, description, product feature, colour or other information contained in these materials. Nothing in these materials should be taken to exclude, restrict or modify the application of any condition, warranty, guarantee, right or remedy conferred or implied under the Competition and Consumer Act 2010 (Cth), the Australian Consumer Law, the Consumer Guarantees Act 1993 (NZ), the Fair Trading Act 1986 (NZ) or any other law, where to do so would contravene that law, or cause any part of these materials to be void.

In particular, where our goods are acquired by a consumer within the meaning of the Australian Consumer Law or the Consumer Guarantees Act (NZ) our goods come with guarantees that cannot be excluded under the Australian Consumer Law or the Consumer Guarantees Act (NZ). You are entitled to a replacement or refund for a major failure (or, in the case of New Zealand only, substantial failure) and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major or substantial failure. BMW Group Australia and BMW Group New Zealand recommend that all customers check availability and performance of both technical and design features in the vehicle they are ordering or purchasing, before purchase.
